

64th Annual ACPO Seminar Dr. Carlos Afanador Ruíz

"Transcending Limits"

We are pleased to invite you to the 64th Annual Seminar of the Colombian Association of Periodontics and Osseointegration (ACPO), entitled "Transcending Limits", tribute to Dr. Carlos Afanador Ruíz. This event will take place from August 26 to 28, 2024 at the Las Américas Hotel and Convention Center, in Cartagena, Colombia.

This year we are going to explore from biology, technique and technological advances those critical clinical situations in obtaining treatment success:

Are there limitations that allow us to make a confirmed diagnosis in each case?

Is aging a condition that limits us in obtaining results?

Do technological advances allow us to extend the limits to go beyond what nature allows us?

The central axis of this congress will be the limits, and from there, with the contribution of more than 10 speakers, we will address periodontitis and its relationships with systemic diseases of a similar nature, peri-implantitis and regenerative procedures of hard and soft tissues.

Join us in this great academic experience where we will also have social activities and an interesting commercial exhibition by our sponsoring brands that innovate every day to offer us cutting-edge products, services and technology.

What awaits you?

- **Inspiring Presentations:** More than 10 internationally renowned speakers will share their knowledge about periodontitis, peri-implantitis and regenerative procedures, addressing the biological, technical and technological limits in dentistry.
- **Interactive Workshops:** Practical sessions that will provide you with advanced tools and techniques to improve your clinical skills.
- **High-Level Networking:** With the participation of more than 600 attendees and 30 commercial houses, you will have the opportunity to connect with leading professionals and discover the latest innovations in dental products and services.
- **Technology Exhibition:** A commercial exhibition with the most advanced technologies and innovative solutions for the field of oral health.

Why attend?

- **Innovation and Knowledge:** Obtain valuable insights that will help you overcome barriers in your clinical practice and offer better treatments to your patients.
- **Inspiration and Motivation:** A dynamic environment that will challenge you to think beyond conventional limits and motivate you to achieve new goals.

- ***Connections and Collaborations:*** Establish lasting professional relationships and explore collaboration opportunities with experts around the world.

The event will include social activities and spaces designed for the exchange of experiences and knowledge, fostering an environment of learning and continuous growth.

Registration is open and you can ensure your participation by visiting the official ACPO website: <https://www.acperiodoncia.com/64seminarioanual/>

Don't miss this unique opportunity to be part of an event that promises to transform your perspective and open up new possibilities in the field of periodontics!
